# ADDITIONAL INFORMATION

## **TYPE OF EQUIPMENT**

Nd:YAG | Diode | Alexandrite

## **WAVELENGTHS**

755nm 808nm 1064nm

## **SAPPHIRE TIP**

## **SPOT SIZE**

10mm x 10mm

## **FLUENCE**

90 J/cm<sup>2</sup>

## **PULSE FREQUENCY**

10~300 ms

## **POWER SUPPLY**

230 - 240 V 50 Hz

## **ABSORBED POWER**

1800 W

## **DIMENSIONS**

W x D x H 510 × 680 × 480 mm

## **WEIGHT**

45kg

## **MULTIPLE WAVELENGTHS**

By blending all three wavelengths seamlessly, your laser hair removal treatments can be customized to each client's unique needs. Cervello™ latest technology give your clients the safest, fastest and most effective treatments. Our laser utilizes a proprietary blend of three wavelengths - 755nm, 808nm, and 1064nm - that works with all skin and hair types for superior results.

## **DOUBLE COOLING TECHNOLOGY**

DCT works to cool the skin throughout the treatment process, reducing the risks of burns while still effectively heating the dermis to remove hair follicles. Its cooling down to -5°C. This cooling technology helps extend the device's longevity while maintaining its efficacy.

## **MIRROR POLISHED REFLECTING SURFACE**

Cervello™ diode features an exclusive MPRS (Mirror Polished Reflecting Surface) coating shown to amplify laser performance. This sophisticated MPRS coating increases the laser diode's ability to reflect light within its structure. With each internal reflection, more light is channeled into the output beam for targeting hair follicles.

## **PROVIDERS REPORT 75% REDUCTION OF HAIR IN 4- 5 TREATMENTS**

Our medical providers have seen outstanding results using our new laser hair removal treatment. In clinical trials, they observed an average reduction of hair by 75% after just 4 treatment sessions.

## **INDIVIDUAL PULSE AND GLIDING MOTION**

Cervello™ laser hair removal treatments use the latest technology to safely and effectively reduce unwanted hair. By utilizing individual pulse emission and a gliding motion over the treatment area, we are able to target hairs precisely for long-lasting smooth skin.

## **NO SPECIAL 220 VOLT OUTLET REQUIRED**

Not needing a specialized high-voltage outlet gives you maximum flexibility for where laser hair removal can be offered. Its compact design allows it to operate safely on a standard 110- 120 volt outlet found in any treatment room.

## **PERFECT FOR SMALL SPACES**

Our medical providers have seen outstanding results using our new laser hair removal treatment. In clinical trials, they observed an average reduction of hair by 75% after just 4 treatment sessions.

## **PRESETS SETTING**

Whether you are a new medical professional, medical staff member, or small business owner just starting out, we have solutions that work for you! Featuring intuitive presets and a simple plug- and-play design!

## **FREE USE SETTING**

The free use setting is an advanced option that allows for greater customization of your laser hair removal treatments. With free use mode, the medical professional has full control over the laser settings for customization your clients individual needs. Its compact design allows it to operate safely on a standard 110- 120 volt outlet found in any treatment room.

## **ENERGY LEVEL**

You can adjust the intensity of each laser pulse up or down as needed to target different hair and skin types effectively. This provides more flexibility than preset energy levels.

## **PULSE DURATION**

The duration of each laser pulse, measured in milliseconds, can be shortened or lengthened to optimize results.

## **PULSE SEQUENCING**

With free use, you can control the timing between pulses to deliver optimal energy to the hair follicles.

## **NO CONSUMABLES-MAINTENANCE FREE**

The Cervello™ is a revolutionary laser hair removal device that offers long-lasting results without high ongoing costs. Unlike other devices that need expensive replacement cartridges, the Cervello™ has no consumables to factor into the cost.

## **MADE IN ITALY**

Cervello™ laser hair removal devices represent the pinnacle of Italian ingenuity. Designed and engineered in Bologna, Cervello™ combines elegant aesthetics with powerful, precise laser technology to give you the smooth, hair-free skin you've always wanted.

## **TECHNIQUE IS KEY**

At Cervello & Co., the well-being and progress of our clients are our top priority. We understand that personalized approach and clinical support are key aspects of an effective training program. Our certified personal trainers are committed to providing a highly customized experience for each client.

## **TRANSPORTABLE**

Take the power and precision of Cervello™ lasers anywhere with the transportable Cervello™ cart! It comes equipped with a beautifully designed 3-tier rolling cart allowing you to easily transport your entire laser station from room to room or between locations.

## **ON-SITE TRAINING REQUIRED**

To use Cervello™ laser hair removal equipment safely and effectively, specific clinical training is required. The level of training may vary depending on the jurisdiction and the specific regulations in place.
